Welcome runners!

This year's event is sure to be exciting as we get ready for the fifth anniversary of the Tinker Bell Half Marathon Weekend presented by PANDORA Jewelry. Amazingly, we are welcoming more than 1,000 legacy runners who have participated in this race every year for the past five years!

The weekend starts on Thursday, May 5 with the opening of the *runDisney* Health & Fitness Expo, which will run through Saturday, May 7 at the Disneyland Hotel. The event continues with the Never Land 5K on Friday, the Tinker Bell 10K on Saturday, followed by the Tinker Bell Half Marathon on Sunday.

This is also the second year of the Pixie Dust Challenge, inviting participants to run the 10K on Saturday and the half marathon on Sunday to earn the Pixie Dust Challenge medal. Additionally, runners who have completed this year's Disney Princess Half Marathon at the *Walt Disney World*® Resort and the Tinker Bell Half Marathon at the *Disneyland*® Resort are eligible for a special pink edition of the Coast-To-Coast medal.

With runners from every state in the country, and 32 countries around the world, it is remarkable to see how popular the Tinker Bell Half Marathon has become in such a short amount of time.

As J.M. Barry wrote in *Peter Pan*, "Dreams do come true, if only we wish hard enough." Best of luck to you in this year's races!

Have a safe and magical time!

Welcome to Anaheim, Tinker Bell Half Marathon Weekend Racers!

If this is your first time here, welcome! For those of you returning, hello again!

To all racers, I personally would like to applaud each one of you for making the personal commitment to train and participate in what is sure to be one of the most *enchanting* races you'll experience. Best of luck!

Between race events, we hope you find time in your schedule to explore some of Anaheim's awe-inspiring attractions and sights. No trip is complete without a visit to historic downtown Anaheim. Located less than two miles away from the *Disneyland*® Resort, start at the Anaheim Packing House. This former Sunkist citrus packing plant has been revamped into a stunning communal food hall offering two-dozen diverse micro-restaurants and featuring live music on most weekends. After, play in Farmers Park or jump on the trolley over to Center St. Promenade for an afternoon stroll. Then soar into the evening with SwingIt Trapeze as you learn the acrobatic art of flying trapeze.

Make your stay a home run by catching a Los Angeles Angels of Anaheim ball game. The Angels are playing at home for the entire weekend, but first make sure to grab dinner (and shop) at Anaheim GardenWalk or *Downtown Disney*® District before the first pitch.

The best part is you can travel around Anaheim without stepping foot in a car. Anaheim Resort Transit (ART) offers convenient routes from hotels in the Anaheim Resort district to all attractions mentioned above and many, many more.

Most of all please enjoy all the magical moments this weekend! Thank you again for visiting and we hope you create memories here that last a lifetime.

Sincerely,

Jay Burress

EVENT SAFETY

parks. As a result, Guests may need to change their attire prior to visiting the parks after participating in a runDisney race.

Pacing

All participants are required to maintain a pace of 16-minutes-per-mile throughout the entire race. Anyone who is not able to maintain a 16-minute-per-mile pace may be escorted or transported to the Course Pick-Up Tent in the Pinocchio Parking Lot. Participants may be picked up at any point along the course for not maintaining a 16-minute-per-mile pace. It is suggested that athletes train for a 15-minute per mile pace or faster to allow time for breaks (restroom breaks, photo opportunities, etc.).

Pace cyclists will be on the course indicating when runners are behind pace by posting orange flags at mile markers according to the official pace time. If you reach a mile marker with an orange flag, you are behind the required 16-minute-per-mile pace and can be picked up at any time.

Runners unable to finish the race due to injury or fatigue may stop at any medical or water station for assistance and transport to the Course Pick-Up Tent, in the Pinocchio Parking Lot.

Weather

A color-coded flag system, the Event Alert System, will be used to communicate the status of course and event conditions to participants on race day. The levels range from Low (green) to Moderate (yellow) to High (red) to Extreme (black) based primarily on the weather, as well as other conditions around the Disneyland® Resort.

The race will be held rain or shine. If there is lightning in the area the race will either

have a delayed start or depending on the intensity of the weather, be canceled. All medical stations will have the appropriate flag color displayed according to existing heat and course conditions.

All participants should familiarize themselves with the Event Alert System prior to the race, remain alert for directions from race officials and announcers and take precautions to prepare properly for varying weather conditions on race day.

EVENT ALERT SYSTEM

RACE ETIQUETTE

The race staff would like to thank you in advance for considering these etiquette tips as you enjoy the Tinker Bell Half Marathon Weekend presented by PANDORA Jewelry.

- Please pay attention to pre-race instructions – both print and verbal. What you read and hear will not only help guide you through the course but will keep you safe.
- Wear your race bib on the front of your shirt and SMILE! Course photographers will be taking pictures of you throughout the race.
- Please enter your correct start corral. This will ensure that you are running with people who have a similar pace.
- Run or walk no more than two abreast. Other runners will want to get by you. If you are walking in a group, please start in the last corral.
- If you are planning to walk, please keep to the right side of the course so that runners may pass on the left.
- If you want to run with a friend and they are in a different corral, the faster of the two can move back to the slower corral.
- If you are stopping at a water or food station, move all the way over to the table. Grab water and move away from the table so that others may get water too.
- Move to the side if someone behind you says "Excuse Me" or "Coming Through".
- Feel free to shout words of encouragement to other runners. You will hear words of encouragement in return.
- When you are approaching the finish line, you may see loved ones cheering you on. Please do not encourage anyone to join you in the finish line stretch. Your support team is very important, but please communicate that the race course and finish area are for registered participants and staff only.
- Enjoy the post-race refreshments, but remember that others will want to enjoy the goodies too. Please be courteous to those finishing behind you and take only one of each item.
- Celebrate! Thank your volunteers and have a great race!

TRAINING TIPS

By Olympian Jeff Galloway, Official runDisney Training Consultant

How To Stay Motivated

Those who have a strategy almost always do better and feel more motivated than those who don't. You can take control over your motivation and your enjoyment on race weekend if you will follow the steps below. This is one of the reasons why my friend and fellow Olympian Steve Prefontaine (subject of the Hollywood Pictures movie "Prefontaine") was so successful. He took mental control over his race plan and his race.

When you start to get nervous or lose motivation, focus on these steps. This activates your human brain, the conscious brain and puts you in control over your running...and your life.

- Eat a blood sugar boosting snack if needed—Low blood sugar is a major stress on the brain. A simple snack of about 100 calories can often change attitude in 20-30 minutes. Some runners have had a rebound by taking a sip or two of a sugar beverage and spitting it out.
- Drink a cup of coffee—if you drink coffee and have no problems doing so. Caffeine is a central nervous system stimulant, and engages the "focus" circuits of the brain.
- Start Walking. The gentle motion of walking and then running will stimulate secretion of the most powerful positive attitude human hormones: endorphins. To stay in the conscious brain, recite a mantra like the following: "I'm moving forward", "I'm in control".
- Smile—Smiles not only activate endorphins. A smile stimulates positive

attitude circuits in the brain. Focus on this thought: "Smiles bring joy".

- Breathe in cadence with your steps—Rhythmical breathing has been shown to reduce stress and improve attitude. Take a lower lung breath every 3rd or 4th breath. Counting keeps the conscious brain in control.
- Believe that you will feel better, and that you are doing something positive for yourself. Your positive belief in what you are doing activates positive attitude hormones.
- Lower the adversity of the workout/race—if you are feeling stress/pressure when considering a pace of 9 min/mi, shift to 10 min/mi. If a 3-1 ratio seems challenging, use a 1-1. Shorter running segments often leave you feeling so strong that you increase speed at the end.
- If the going gets tough use one or more positive mantras as you focus on continuing—not giving up.
- Mantras—Talk to yourself. Use these or create your own.

I'm moving—I feel good
I know I can do this
I'm feeling better
The positive peptides are being
received—I feel better
I'm changing my attitude
My exertion is making me feel better
One more minute
30 more seconds
10 more seconds
One more step, one more step, one
more step

MEDICAL DIRECTOR

James Scelfo, MD

James Scelfo, MD is the Medical Director for runDisney endurance events. Dr. Scelfo is board certified in Family Medicine with a special interest in Sports Medicine. Dr. Scelfo received his medical degree from Louisiana State University and completed his residency training with Florida Hospital. He is actively involved in Orlando sporting events including the Russell Athletic Bowl, the Capital One Bowl, and high school athletics. He also serves as the Medical Director of the Anticoagulation Management Service and Clinical Pharmacy at Florida Hospital Celebration Health. He continues to remain on the cutting edge of medical technology with a focus on prevention, diagnosis and aggressive management of disease. In his free time, Dr. Scelfo maintains an active lifestyle and enjoys jogging, reading, and spending time with his family.

MEDICAL INFORMATION

Florida Hospital Celebration Health medical stations are located along the course and will be marked with medical flags. With prior training, you should be prepared for the physical demands of a half marathon. Nevertheless, you may suffer cold or heat stress, or become dehydrated. The following can help you prepare for a safe and enjoyable race.

What You Need to Know About Fluid Intake

- Drink enough before the race so that your urine is clear to light straw colored (this will vary per person).
- Limit fluids to approximately 4-6 ounces every 20 minutes during the race.
- At least every other water stop, you should have some form of electrolyte replacement (POWERADE®, etc.).
- Drink approximately 16 ounces of electrolyte enriched fluid after the race.
- Runners and walkers who are interested in the endurance "experience" rather than pursuing a "personal best" performance, must resist the tendency to over-drink. Runners/walkers planning to spend longer time on the course are at risk for developing fluid-overload (hyponatremia) and usually do not need to ingest more than one cup (4-6 oz) of fluid every 20 minutes (3 oz if you weigh approximately 110 lbs. and 6 oz if you weigh approximately 200 lbs).

Tips For Race Day

- Check your urine a half hour before the race or before you leave your home. If it is clear to light yellow (like light lemonade), you are well hydrated. If it is dark and concentrated (like iced tea), drink more fluids!
- DO NOT take any product with ephedra in it. Ephedra increases your risk of "heat illness." It should not be used while training or on race day!
- Stay away from dehydrating agents such as cold medicines, anti-diarrhea products, sinus meds and caffeine which all can lead to dehydration; you may take them again a few hours after finishing the race.

Pain Relievers / Supplements

- Recent medical research has shown that non-steroidal anti-inflammatory drugs (NSAIDs) like Advil, Motrin, Aleve, ibuprofen, aspirin, naproxen, etc. may be harmful to runners' kidney function if taken within 24 hours of running. Only acetaminophen (GoodSense) has been shown to be safe.
- NSAIDs are thought to increase the possibility of hyponatremia while running long distances by decreasing blood flow to the kidneys and interfering with a hormone that helps the body retain salt. Therefore it is recommended that on race day (specifically beginning midnight before you run) you DO NOT use anything but acetaminophen (GoodSense) if needed until 6 hours after you have finished the race, are able to drink without any nausea or vomiting, have urinated once, and feel physically and mentally back to normal. Then, a NSAID would be beneficial in preventing post-event muscle soreness.

MEDICAL INFORMATION

- Narcotics should be avoided within 48 hours of race day due to the harmful effect on performance, perception, and mental status.
- Vitamin supplements (Vitamin A, C & E) can alter urine color so be wary of hydration status if taking these supplements.
- Caffeine and other amphetamine-like compounds containing pseudophedrine, such as Sudafed and most sinus and cold preparations, taken within 24- hours of race time can also raise core temperature; increase blood pressure and heart rate and should be drastically limited during this time.

Warning Signs

- Nausea and/or Vomiting – this can be a sign of dehydration, or over hydration and electrolyte imbalance. Proceed directly to a medical station located throughout the course.
- Dizziness, confusion, loss of peripheral vision or general tingling – are more concerning and greater precautions should be taken. Find a course representative and ask for assistance immediately.
- Chest Pain – stop all activity and ask another participant to assist with locating a course representative or medical volunteer.
- Dry Skin – a sign of significant dehydration and loss of normal regulatory systems. Proceed directly to a medical station located throughout the course.

For Your Own Safety

- Complete the medical history on the back of your race number.
- Drink plenty of fluids.
- Know the symptoms of heat illness. Run responsibly and don't be afraid to ask for help.
- Help your fellow runners. If you see someone in distress, tell him or her what we have told you. If they refuse to stop, report their race number to one of the volunteers along the route.
- Let your friends and family know your race number so they can find you if you are in a medical tent.
- Listen to the weather forecast and plan accordingly. Both heat-related injuries and hyponatremia are life-threatening conditions.
- Skin in high friction areas (nipples, thighs, armpits, etc.) should be well lubricated with a non-water soluble lubricant (petroleum jelly).
- Make sure your shoes and clothes are appropriate for the event and environmental conditions.

Questions

The Florida Hospital Celebration Health Medical Team is here to help! On race day, there will be sports medicine professionals at the finish line and throughout the course. Remember, on the course we will have medical staff at all four tents as well as medical bike teams to help you along the way.
